

QUALITY POLICY

THE COMPANY HAS ESTABLISHED ITS QUALITY POLICY, WHICH REFLECTS THE COMPANY'S APPROACH TO QUALITY.

The company's quality policy has been developed by the company director and obliges all employees to implement it.

The company's quality policy states:

Luznar Electronics d.o.o. is one of the leading Slovenian companies in printed circuit board equipment. Our goal is to strengthen our position by investing in:

- Education and training of employees
- Excellence in customer support
- Continuous quality improvements
- Production technology
- Cost reduction

The company will continuously maintain and enhance its ethical business standards, and demonstrate its care for customers, employees, suppliers, and the environment in which it operates.

We commit to:

- Maintain and continuously improve the quality management system in accordance with ISO 9001 standards.
- Set measurable annual goals for each process and monitor them interdisciplinarily, continuously reviewing performance and implementing necessary preventive and corrective actions.
- Comply with legislation and regulations in the production of our products.
- Continuously improve the energy and environmental efficiency of production processes.
- Optimize the use of raw materials by reducing waste and using sustainable materials.
- Commit to compliance with environmental regulations and standards (RoHS, REACH, ISO 14001, EU Green Deal).
- Educate employees on the impacts of climate change on product quality.
